EVERY child knows why Oliver Twist finished his bowl of Oatmeal with gusto and went to Mr. Bumble, the schoolmaster, for more. '

Oatmeal is almost a perfect food, and hature's guiding instinct urges children to ask for more. For nearly half a century, millions of mothers have willingly given their children all the H-O they asked for.

That rare toasted flavor which belongs only to H-O has taught millions of kiddies to love the cereal that is best for them.

Hand-Trunks, \$6 each

This is a sort of sawed-off steamer trunk in appearance, and it looks as if it would last 100 years.

It is 20 in, long, 1614 in, high and 9 in. the ck made of heavy, indestructible fiber, and with the lock and clasps and corner buffers of a trunk

It will hold twice as much as the average suitcase, yet it isn't too big to take along as hand-luggage on a railroad trip; and it will fit neatly on the tonneau floor of an automobile. Many men have bought them to use for filing purposes in offices or at home

The lock and clasps and buffers and hinges alone look as if they were worth more than \$6.

Yet you get the whole outfit for that price.

The reason is that the thing is really an army officer's field desk and filing cabinet—fully fitted up inside with filing devices.

But the demand for army officers' field equipment no longer exists.

So, you can get the case for \$6-and dump out the filing devices- and you have a dandy little handtrunk that you can travel clear around the world
